THE MILL HOUSE HOTEL

OUT WITH THE OLD, IN WITH THE NEW

J & J Carter were contracted by Loddon Hotel Ltd., owners of The Mill House Hotel to replace their existing marquee facility with a modern structure. The old marquee, measuring 30 ft. x 75 ft. was a classic 1980's aluminium clearspan marquee which was fine at the time it was installed; but not by today's standard.

With clients ever increasing levels of expectation, and today's high standards for weddings and corporate events, there was a requirement to replace the marquee with a facility that can provide not only comfort, but also an environment suitable for food preparation. The new 9m x 22.5m clearspan structure was not only designed to fit within the existing site constraints to comply with planning permission; but also upgraded with an insulated translucent thermo roof system, solid UPVC side walls, double glazing, bi-folding windows, internal decorative lining and segregated kitchen area.

All these upgrades help provide for a facility which fulfils environmental requirements for reduced use of heating fuel. The hotel have also installed specialist acoustic control systems to minimise external noise from the music system and air-

conditioning.

WHAT THE MILL HOUSE HOTEL SAID:

> *"We can't thank Robert and Ollie enough for their tireless patience and professionalism from the planning stage through to installation. From minor adjustments, co-ordination of the work force to ensure we have a Marquee fit for purpose. The end result is fantastic.*
>
> *Their expertise of their product is faultless with a bespoke structure commissioned due to planning constraints Roberts team really do think out of the box to make things work." - Mark & Kim Pybus owners of The Mill House Hotel*

EXPERT MARQUEE MANUFACTURERS

J & J Carter are leading marquee manufacturers with an eye for detail and commitment to quality. All our marquees are compliant with safety standards and span up to 25m. Discover our range of marquee structures.
