

TOTALLY TENNIS BASINGSTOKE

Totally Tennis operates out of three centres across Basingstoke. The War Memorial Park is their main tennis venue, providing a wide range of tennis for all ages and abilities.

With 4 indoor courts and 4 outdoor courts, Totally Tennis is able to serve the community with all year round tennis in an up to date, well-equipped environment.

This centre does not require players to have a membership and offers a variety of pay and play options, courses and coaching sessions to suit all ages and abilities.

The centre, funded by the LTA and Basingstoke Council, was originally built by a continental contractor in 2000 who went into liquidation. The structures they built were without warranty and some suffering major defects.

The roof here had delaminated and was selected for replacement. With very little information on the construction details, J & J Carter surveyed the building, designed new roof membranes to re-cover some 3600m² over 4 tennis courts.

The installation sequenced was phased to enable continuous use of the centre whilst the roofing work was being carried out. The new roof was made using a PVDF Lacquered PVC Coated Polyester with a guaranteed 10 Year Warranty.

KEY FACTS

LOCATION: United Kingdom

STRUCTURES: Frame Supported

INDUSTRY: Sport

ROOF FORMS: Planar

MATERIALS: PVC/PES
